

vacancies@dps-global.com

Join our dynamic team and help us evolve to become leaders in the upstream oil & gas and environmental technology industries

We are a dynamic and innovative global engineering group, specialising in the engineering of integrated process systems and with an exciting portfolio of process technologies. Whilst our focus is the upstream oil & gas market, we also have a growing presence in the environmental technology sector.

Due to our increasing success and growth we are in need of a number of chemical engineers to fill key roles in both our proposals and project teams.

We're continually amazed by what innovation can achieve.

These roles are:

- **Senior Process Engineers** dps/ichem/spe
- **Study Manager** dps/ichem/sm
- **Process Engineers** dps/ichem/pe
- **Proposals / Process Engineer – Gas Treatment** dps/ichem/pegt
- **Proposals / Process Engineer – Waste to Energy** dps/ichem/pewe
- **Proposals / Process Engineer – Process Technologies** dps/ichem/pept
- **Proposals / Process Engineer – Water Treatment** dps/ichem/pewt

In addition to a competitive salary, there are a host of associated benefits as well as tremendous career opportunities. Whilst we are ideally looking for oil & gas experience, we are keen to hear from people who possess a positive attitude and willingness to learn.

If you are interested in joining an ambitious and exciting company please send your CV, with a covering letter and salary expectations, to Bridget Orchard, HR Manager, DPS (Bristol) Ltd, Serbert Road, Portishead, Bristol, BS20 7GF, UK or email us at vacancies@dps-global.com quoting reference 'dps/icheme/position role'.
