

The global independent technical advisor

GL Noble Denton

Senior Process and Reliability Consultants / Engineers

Loughborough

Our process engineering team provides expert technical consultancy and advice to the international Oil & Gas and LNG industries. Currently embarking on a period of significant growth, we have a number of exciting opportunities based out of our global centre of excellence at Loughborough. We are looking for talented process and reliability consultants and engineers with a proven track record in oil & gas and expertise in one or more of the following areas:

- Gas treatment and processing
- Conceptual or FEED design
- RAM Modelling
- Performance Improvement
- Process Modelling
- Techno-economic Analysis

You'll possess a relevant engineering or mathematical degree, excellent analytical, numerical and communication skills, with the flexibility to support our customers world-wide. If you thrive on applying innovative solutions to complex problems, relish the challenge of a fast-paced environment and wish to work alongside recognised industry experts, then this could be the opportunity for you.

To apply, please forward your CV along with covering letter to recruitment@gl-group.com quoting reference **EUR/02/174** or contact Steve Perks, European Recruitment Manager +44 1509 282155 for a confidential discussion.
